

AWAIMER YASIN

MERN Stack Developer | Database Engineer

awaimeryasin78@gmail.com +92 321 4028926 github.com/awaimeryasin78 linkedin.com/in/awaimeryasin

SUMMARY

BSCS student (NCBA&E, 3rd year) with 1.5 years of freelance experience building full-stack web applications using the MERN stack. Focused on database engineering while working toward full certification, with a track record of delivering client projects on Upwork and Fiverr and designing website templates sold on platforms like Gumroad. Detail-oriented builder who takes pride in polished, functional work.

EXPERIENCE

Freelance Developer

Apr 2025 – Present

Upwork & Fiverr

- Delivered small-to-medium client web projects as a freelance MERN stack developer across two major platforms simultaneously.
- Designed and sold website templates and UI kits on platforms including Gumroad as a side hustle.
- Managed full project lifecycle independently: client communication, scoping, development, and delivery.

SELECTED PROJECTS

PharmaAdmin

A pharmacy management system built in JavaScript for inventory, sales, and admin operations.

ar.dev

An earlier animated developer portfolio built with HTML, CSS, JavaScript, and GSAP, featuring interactive motion and skills visualization.

Vortex UI Template

Production-ready AI SaaS landing page template with a high-contrast dark theme, light mode toggle, and conversion-focused, clean codebase.

NexusRepair

A learning project exploring ASP.NET fundamentals and server-side application structure.
